Responsibilities

- Oversee the completion of projects, ensuring the appropriate resources participate, review or approve deliverables, and appropriate sign-off is received
- Manage client relationship and client satisfaction
- Ensure quality of the solution and project deliverables
- Create project plan and track progress
- Identify, document, assign and track issues through resolution
- Lead and mentor team members and provide feedback to functional managers
- Assist in assembling the project team and align team members
- Work closely with client sponsors to ensure expectations are managed
- Participate in design and code reviews
- Articulate technical solutions to clients

Knowledge, Skills & Certifications

- Bachelor's degree in a related field
- Proven ability to manage and deliver development projects
- Technical architecture and development background
- Experience with MS technologies and understanding of SDLC
- Strong business analysis and problem solving skills
- Strong contextual technical understanding including solutions design and development
- Strong leadership project management skills, including:
 - Project planning
 - Issue and scope management
 - Resource motivation and management
- Strong relationship management skills
- Professional services experience is desirable

Additional Requirements for all C2 Employees

- Strong communication skills and ability to present to small/medium groups
- Excellent customer relationship skills
- Ability to work in a fast-paced team environment
- Demonstrated ability to successfully multi-task
- Proficient in Microsoft Office applications
