

Job Profile

Position Title: Senior Systems Engineer – Virtual Desktop

Position Summary

This is an excellent opportunity for an experienced Systems Engineer with strong virtual desktop engineering skills in VMware (VDI/VMware View) and Citrix technologies (XenServer and XenDesktop). The selected Systems Engineer will be responsible for the configuration, build and implementation of VMware virtual desktop solutions.

Responsibilities

Working with customers ranging from small to enterprise-level environments, the selected candidate will be part of a team responsible for the end-to-end delivery of infrastructure solutions to meet customers' business needs. The ideal candidate will be able to work as part of a team and will self-manage the delivery of best practice environments for our customers with minimal direction from a technical lead or manager. The Systems Engineer will collaborate routinely with customer nominated representatives to accomplish assigned tasks.

Knowledge, Skills & Certifications

- Experienced working in enterprise-level environments
- Thrives in a team environment
- Exhibits strong interpersonal and communication skills
- Multitasks in a fast paced environment.
- Creative problem solver
- Builds effective customer relationships
- Demonstrates solid virtualization desktop skills, including configuration, build and implementations
- Technical certifications preferred (VCP,CCIA,CCIE,MCSE)

Additional Requirements for all C2 Employees

- Strong communication skills and ability to present to small/medium groups
- Excellent customer relationship skills
- Ability to work well in a team environment
- Demonstrated ability to successfully multi-task
- Proficient in Microsoft Office applications
