

Job Profile

Position Title: SharePoint Developer

Department: eBusiness

Position Summary

C2 is seeking a SharePoint Developer to work on the development and deployment of Microsoft Office SharePoint Server 2007 (MOSS) and Windows SharePoint Services 3.0 (WSS 3.0)-based applications for C2 clients. The successful candidate will design and implement scalable enterprise applications using SharePoint platform. Five to seven years of experience with .NET technologies, SharePoint/WSS/MOSS application development and relational databases is required.

Responsibilities

- Collaborate with Business Analysts and Technical Architect to design and implement scalable enterprise applications for C2 clients
- Develop SharePoint solutions and deploy to production environments
- Conduct performance and scalability testing, and capacity analysis/planning
- Create custom lists and views using SharePoint Designer
- Create and maintain master and layout pages
- Implement taxonomies as defined by Business Analysts
- Keep current with technology trends and developments in the industry and participate in C2 service development

Knowledge, Skills & Certifications

- Minimum of five years' experience with .NET technologies (ASP.NET, C#, VS.NET and Web Parts)
- Experience with SharePoint/WSS/MOSS application development and developing application pages/list event handlers
- Knowledge of web application development, and experience in developing custom web parts and integrating enterprise content with SharePoint to include content indexing, personalization, workflow and restricting access to content
- Strong experience with XML, WSDL, Web Services, InfoPath, Web Parts, AJAX, JavaScript, JQuery, HTML, DHTML, CSS and Active Directory
- Knowledge of relational databases including Oracle, SQL Server 2005/2008, SQL Reporting Services and SQL Analysis Services
- Experience with business intelligence inside of SharePoint using out of the box and custom development
- Experience with application and user security models
- Strong understanding of the SDLC with SharePoint projects
- Strong attention to detail and documentation skills are a must

Additional Requirements for all C2 Employees

- Strong communication skills and ability to present to small/medium groups
- Excellent customer relationship skills
- Ability to work in a fast-paced team environment
- Demonstrated ability to successfully multi-task
- Proficient in Microsoft Office applications
