

Position Title: Software Engineers

Department: eBusiness

Position Summary

C2 is seeking two Software Engineers to design, architect, and maintain .NET applications to support our clients' eCommerce business requirements. The successful candidates will create high-quality ASP.NET web and eCommerce sites using web-based tools and techniques. Experience with languages including C#, VB.NET, ASP.NET, and JavaScript are a must. The ideal candidates will have a thorough understanding of internet and database architecture, and a high level of technical expertise in web development.

Responsibilities

- Contribute individually to the design, architecture and development of large-scale custom application development projects
- Interact with internal technical, business and management staff, as well as clients
- Work in a team environment to develop web portals and ASP.NET applications for major client projects
- Establish, support and evolve C2 development and process standards within all projects
- Review code of other developers while applying strict adherence to quality standards and control points
- Interface with Program Managers, Project Managers/Analysts, Creative/UI Designers and clients
- Keep current with technology trends and industry developments

Knowledge, Skills & Certifications

- Bachelor's degree in a related field
- Minimum of three years of experience in .NET development of eCommerce solutions
- Experience with ASP.NET (C# or VB.NET) using the Visual Studio development environment, SQL Server 2000/2005, XHTML, XML, Windows 2k and 2k8 Server and Internet Information Server (IIS)
- Strong foundation in the concepts of web-based application development
- Strong understanding of the SDLC
- Client-side development in JavaScript and a comfort with Object-oriented development methods
- Experience with eCommerce development
- Experience in Content Management Systems (i.e. Sitecore)
- Experience in one or more of the following technologies: MS Commerce Server, Content Management Systems, AJAX and jQuery
- Experience with standards-compliant HTML development using Cascading Style Sheets (CSS)
- Professional service experience
- Technical certifications a plus

Additional Requirements for all C2 Employees

- Strong communication skills and ability to present to small/medium groups
- Excellent customer relationship skills
- Ability to work in a fast-paced team environment
- Demonstrated ability to successfully multi-task
- Proficient in Microsoft Office applications
