**Competitive Computing (C2) Named VITL Preferred Technology Services Partner**  
*C2 to assist healthcare providers with managing and supporting their IT infrastructure*

**COLCHESTER, VT– July 6, 2010** – Competitive Computing, Inc., also known as C2, announced today that they have been selected as a preferred technology services partner by Vermont Information Technology Leaders, Inc. (VITL). VITL is a not-for-profit organization that assists Vermont physician practices and hospitals with implementation of Electronic Health Records (EHR) systems and achieving meaningful use of those systems.

“We are excited to be selected as a preferred technology services provider in partnership with VITL,” said Martin Thieret, Founding Partner, Enterprise Infrastructure Solutions. “We look forward to working with physician offices throughout Vermont to provide cost effective and secure information technologies for electronic health records and practice management systems.”

To facilitate a rapid and successful EHR implementation, C2 offers a set of standard services and preferred pricing for physician practices that include:

- EHR Technical Assessment and Recommendations
- Design, Implementation and Training
- Proactive, Ongoing Management, Security and Systems Monitoring

“VITL’s goal is to provide physician practices with carefully-selected preferred partners that they can feel confident doing business with,” said David Cochran, MD, President and CEO of VITL. “We are pleased that C2 has met our criteria and has been added to our growing list of partners,” continued Cochran.

### **About VITL**

VITL is a non-profit organization with a mission of collaborating with all stakeholders to expand the use of secure health information technology to improve the quality and efficiency of Vermont’s health care system. [www.vitl.net](http://www.vitl.net).

### **About C2**

Competitive Computing (C2) is a leading Vermont IT solutions firm that helps organizations achieve competitive advantage by leveraging advancing technology solutions. They offer a comprehensive set of IT services that includes design, implementation, protection and management of IT environments for EHR and practice management needs. C2 also provides a complementary suite of service offerings that includes Mission-Critical Support Services, Unified Communications, Enterprise Infrastructure Services, Multi-Channel eCommerce and eGovernment Services. C2 is a women-owned, small business celebrating its 17th year in business in 2010. [www.competitive.com](http://www.competitive.com).
